

HIGH-PERFORMANCE BUILDING CONGRESSIONAL CAUCUS COALITION

--www.HPBCCC.org--

Press Conference Kick-Off to High-Performance Building Week

Sponsors:

Buildings play a crucial, yet often unrecognized role in American life. For instance, people spend about 90 percent of their time indoors, and buildings account for 40 percent of energy consumed in the United States, and nearly half of all greenhouse gas emissions.

Come join us for a press conference featuring policymakers and industry experts to kick-off High-Performance Building Week (May 23-29), which celebrates the economic, health, safety, environmental, and many other ways that the built environment influences American life, and how high-performance buildings will help pave the way to a more prosperous future. Information on the press conference is provided below, and a full schedule of events for High-Performance Building Week can be found at www.hpbccc.org/hpbweek.

Tuesday May 24, 2011 ● 9:30am – 10:30am
U.S. House of Representatives
Room 2325 Rayburn House Office Building
